Organization & Business Context

Diverse Loopers operates in the technology, innovation and EdTech learning space.

Business Focus

Hybrid Hustle Model addressing the skill-gap challenge through practical learning, skill-development programs, educational events and career-oriented initiatives.

Operating Environment

Fast-moving, cross-functional and delivery-oriented environment requiring coordination across operations, content, marketing, partnerships and community.

Value Proposition

Connect learners and professionals with practical skill-building opportunities while building a scalable education and growth ecosystem.

CMGO ROLE IN THIS CONTEXT

The CMGO role sits at the intersection of strategy and execution: translating priorities into initiatives, coordinating people and stakeholders, monitoring delivery, and supporting growth without losing operational discipline.

Role, Journey & Scope

A progression from organizational responsibilities toward broader leadership ownership.

Core Responsibilities

The role combines ownership, coordination and execution across multiple business functions.

01

Strategy & Planning

Translate business priorities into actionable plans, milestones and execution priorities.

02

Operations

Coordinate day-to-day execution, timelines, process flow and issue resolution.

03

People & Team

Coordinate a 15–20 member cross-functional team with clear ownership and follow-through.

04

Programs & Events

Support course delivery, crash courses, workshops, career initiatives and large-scale events.

05

Growth & Partnerships

Support learner acquisition, community growth, partnerships and business-development activity.

06

Reporting & Accountability

Maintain progress visibility through updates, documentation, stakeholder communication and follow-up.

Portfolio of Initiatives

Multiple workstreams consolidated into one leadership portfolio.

15+ courses

Skill Development

Supported practical skill-development programs and course execution.

Free programs

Semester Crash Courses

Expanded access to structured learning for IILM University students.

5+ initiatives

Educational & Career Events

Supported workshops, career-development programs and large educational events.

250+ learners

Community Growth

Built and engaged a learner community across multiple colleges and professionals.

15–20 team members

People Operations

Coordinated a cross-functional team across operations, content, marketing, partnerships and community.

≈ ₹5L/month scale

Business Operations

Worked across priorities supporting the venture's approximate current monthly revenue scale.

Operating Model & Stakeholder Coordination

The role requires continuous alignment between internal teams and external stakeholders.

LEADERSHIP OPERATING CYCLE

- 1 Plan** Set priorities & outcomes
- 2 Align** Assign owners & dependencies
- 3 Execute** Drive delivery & unblock issues
- 4 Measure** Review progress & reporting
- 5 Improve** Capture feedback & refine

KEY STAKEHOLDERS

-  **Leadership / Management**
-  **Operations & Program Teams**
-  **Content & Marketing**
-  **Community & Learners**
-  **Partners / Institutions**
-  **Clients / Relevant Stakeholders**

Skills, Competencies & Working Practices

Capabilities strengthened through the CMGO role.

CORE COMPETENCIES

- Strategic planning & business thinking
- Team leadership & cross-functional coordination
- Stakeholder communication
- Decision-making & prioritization

EXECUTION CAPABILITIES

- Problem-solving under changing priorities
- Program & event management
- Documentation, reporting & accountability
- Adaptability in a startup environment

WORKING PRACTICES Planning • Progress tracking • Team coordination • Reporting • Feedback loops • Continuous improvement
